WHO WE ARE?

Our values

What we do

The Amasia Wool Factory was founded in 2019 and is a unique medium to large fiber processing unit operating in Armenia today. We source our raw materials from Shirak shepherds and produce pure Armenian wool for local and international clients. We combine modern carding technologies with handcraft knowledge to offer authentic and natural woolen products ranging from carded ribbons and veils to yarn and fabrics. We pay great attention to sustainability and the preservation of the environment. For that purpose, our wools are washed with eco-friendly soaps and our yarns are dyed with natural dyes only. The products showcased in this catalogue show our capacities while we put extra care towards undertaking special orders based on our clients' specific requirements.

OUR WASHED WOOLS

1 ton per month
4 natural shades

Our washed wools are the expression of Amasia's pristine environment made of vast grasslands scattered with lava flows.

The Amasia Wool factory produces half a ton of washed wools per month with the capacity to increase its production to 1 ton per month when needed. Our wools are cleaned and degreased carefully using pure and soft Amasia water and biodegradable cleaning agents. This gentle washing process preserves our wools qualities as well as the environment. We offer 4 natural shades ranging from white and beiges to light and dark browns. Based on our client's needs, we can mix our wools to increase the range of natural shades.

Packaging: loose or in 10 kilo reusable bags
Uses and applications: mattresses, blankets, pillows, covers and quilts, insulation material and many more

OUR CARDED WOOLS

We use modern carding technologies to produce state of the art pure carded wools in 4 natural shades ranging from white and beiges to light and dark browns. Based on our client's needs, we can mix our wools to increase the range of natural shades.

OUR CARDED WOOLS INTO VEILS

We produce carded veils with constant thickness ranging from 2 to 17 cm. Standard dimensions: 100x220cm

Packaging: bags

Uses and applications: felting, mattresses,
blankets and quilts...

OUR CARDED WOOLS INTO RIBBONS

Our fibers receive an antistatic treatment prior to carding for exceptional results. Our electronic carding machine allows us to set the ribbons thickness to the exact needs of our clients.

Packaging: 10 kilos bags

Uses and applications: Ribbons are suitable for manual and
mechanical spinning, blankets and other handicrafts

OUR NATURAL YARNS

Manually spun using spinning wheels with electric assistance, our yarns carry the unique feeling of hand made goods. They are the logical choice for Armenian rug makers committed to continuing the Armenian carpet tradition.

OUR YARNS IN NATURAL COLOURS OF AMASIA

Our Natural yarns come in 4 natural shades ranging from white and beiges to light and dark browns. Based on our clients' needs, we can mix our wools to increase the range of natural shades. We produce single, double or triple ply yarns, in skeins or balls and we adapt the twist and count to our clients requirements. Yarn counts range from 3 to 8 N. We produce 3 yarn twists: low, medium and strong.

Packaging: skeins or balls
Uses and applications: rug making, weaving,
knitting, embroidery...

OUR NATURALLY DYED YARNS

Indigo, madder root, Cochineal, Logwood, Turmeric, Amaranth... We make no compromises and use only natural dyes with adequate fixation technics for long lasting colours. We produce single, double or triple ply yarns, in skeins or balls and we adapt the twist and count to our client's requirements. Yarn counts range from 3 to 8N. We produce 3 yarn twists: low, medium and strong.

Packaging: skeins or balls
Uses and applications: rug making, weaving,
knitting, embroidery...

OUR NATURAL HANDWOVEN FABRICS

Our range of handmade fabrics use 100% Amasia Wools weft and 100% cotton warp. Our weavers work with state of the art Glimakra handlooms imported from Europe. Our choice of natural colours and dyes, combined with the wide range of design options offered by our 8 shaft looms allow us to propose the most diverse collection of fabrics made in Armenia. We work individually with our client's to design the fabric of their choice in total confidentiality.

Technical capacities: we produce fabrics up to 8 meters long with a maximum width of 110cm.

Use and applications: home interior, upholstery, fashion accessories, clothing...

Amasia Wool Factory was established with the support of European Union, Government of Armenia and People in Need Czech NGO within the "EU4Shirak: Wool for Jobs" project.

The project aims to revive and modernise the wool value chain and the art of wool crafts in Shirak region. Acting as a motor for job creation and Small and Medium Enterprise (SME) development, this project aims to increase employment and economic competitiveness of actors within the crafts sector in Shirak region, contributing in particular to women's empowerment.

People in Need's implementing partners are the Women's Development "Resource Center" Foundation, Chamber of Commerce and Industry of Shirak Region, and Amasia Municipality.

This publication was produced with the financial support of the European Union. Its contents are the sole responsibility of People in Need Representative Office in Armenia and do not necessarily reflect the views of the European Union.
